Post a Job

Sensio Labs

Paris, France

Web Developer - full time

You've already developed websites with symfony and you want to work with Open-Source technologies. You have a minimum of 3 years experience in web development with PHP or Java and you wish to participate to development of Web 2.0 sites using the best frameworks available.

How to apply?

Send your resume to [fabien.potencier \[at\] sensio.com](mailto:fabien.potencier@sensio.com)

SETUP

COMMANDS

```
composer create-project symfony/website-skeleton:4.0 /tmp/jobeeet/  
cp -aR /tmp/jobeeet/. .  
exit;  
sudo chown -R $USER:$USER .
```

HOMEWORK

HOMEWORK

- Install docker and docker compose
- Fork: <https://github.com/P5CHI-Web-Academy/Homework-Symfony-Symfony>
- Clone fork to local machine
- Setup docker environment for application:
 - Can generate config on: <https://phpdocker.io/generator>
 - Can use *Symfony: day 1 (docker env).zip*
- Install symfony in docker container
- Access it from browser
- Create Pull Request to your branch

QUESTIONS?

thank you!
